Summary

Creative Digital Analytics Engineer who enjoys concentrating deeply on large projects. Strong logical, artistic, and empathetic skill set.

Experience

Digital Analytics Engineer | Norwegian Cruise Line Holdings | Remote | 2024 – 2026

- Adobe Tags: Migrated from Tealium to Adobe Tags. Programmed data collection to validate and coerce data types according to AEP schema expectations, preventing batch ingestion errors.
- AEP: Migrated from Adobe Analytics to AEP/CJA. Planned schema architecture with the team.
- ObservePoint Certified Professional. Programmed and monitored audits & journeys for the NCLH brands.
- Confluence: Wrote technical specs for cross-team digital analytics implementation.

MarTech Frontend Developer | Princess Cruise Lines | Santa Clarita, CA | 2019 – 2024

- Adobe Tags: Implemented Analytics tracking and third-party marketing pixels.
- AEP: Designed schema architecture and implemented Web SDK tracking.
- Confluence: Designed MarTech tracking architecture and wrote technical specs for cross-team implementation.
- ObservePoint Certified Professional. Programmed and monitored audits & journeys for Princess.com.
- OneTrust: Implemented updates. Programmed user consent conditions into Adobe tracking rules.

UI/UX Designer | fusionZONE Automotive, LLC | Pacific Palisades, CA | 2018 – 2019

- Designed and coded mobile-first web pages for Acura, BMW, Chrysler, Chevrolet, Dodge, Harley-Davidson, Honda, Hyundai, Jeep, Kia, Nissan, Ram, and Toyota dealerships nationwide.
- Observed compliance guidelines for all brands, and web UX and SEO best practices.
- Created Adobe XD wireframes, mockups, and prototypes.
- Worked with implementation managers, client services, backend development, and graphic design teams to deliver quality projects on time.

Education

The Coding Boot Camp at UCLA Extension | Los Angeles, CA
Chapman University | BFA Film Production | Orange, CA
